PRESENTS
2nd Annual Surface Mine Rescue Competition

Recent tragedies in the mining industries, both coal and metal/non-metal, has caused the mining industry to focus on the need for mine rescue preparedness. This will be the second Surface Mine Rescue Competition East of the Mississippi. This program involves working with existing rescue teams and introducing them into the mining environment. The mining industry has it's own unique set of challenges.

Is your rescue team up to the challenge of testing your skills and knowledge? If so, then this is the competition for you. Each team will consist of 5 team members and 1 alternate. The contest is broken into two parts; Problem solving and First Aid. Trophies will be awarded to the 1st, 2nd and 3rd place winners. Here's your chance to show off your rescue skills to your peers. Come be part of this exciting Surface Mine Rescue Competition.

The teams only need to bring their own personal rescue equipment.

The 2nd Annual Surface Mine Rescue Competition will be held at the TRAP ROCK, Kingston, NJ Quarry on September 26, 2009

T Shirts will be provided to contestants please state the number of sizes needed
S__ M__ L__ XL__ 2XL__ 3XL__.
